Instructions-

Please take a moment to review the instructions on all product packaging before beginning any project.

1. Mask off areas to be covered in Texture Magic as desired using the low-tack tape.
2. Remove the seal from the tube and squeeze out the Texture Magic. Use the rounded spreader to cover the desired area.
3. Embed flat marbles, beads or desired objects into the Texture Magic.
4. Remove tape and set project aside to dry thoroughly, preferably overnight.
5. If you are embellishing multiple sides do one side at a time. Once completely dry rotate the project and continue working.
